HOW IT WORKS

From design to delivered.

One design's journey through our shop — the same four steps for a team crest, a tour poster, or a launch-day mascot.

1

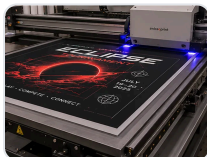

01

The design

A team crest, a band logo, your game's mascot. Send the design — we prep the art for cups, shirts, and boards, and send a free mockup.

2

02

The print

DTG on heavyweight cotton, plate prints on clear cups — all in our Los Angeles facility. Made to survive recess, encores, and launch week.

3

03

The pack

Checked, folded, and packed like a gift — because it usually is one.

4

04

The wearing

The merch table, the café counter, game night. One design, out in the world with your community.

FAT PENGUIN USA

Send us the **design.**

We'll mock it up — **free, in your style.** No commitment. If you like it, we'll print one shirt or a small first run. We don't race to the cheapest shirt; we print the one people keep.
